

Students who Code: Azure for Students and Microsoft Learn Student Ambassador

Irving Hutagalung

Senior Cloud Solution Architect

Microsoft Indonesia

irvingh@microsoft.com - @ihutagalung

DIGITAL TRANSFORMATION REQUIRES NEW SKILLS

Building a learning culture

Introducing students to computational thinking, computer science and STEM at younger ages

Readying students with industry-relevant, role-based skills to fuel the workforce and address the talent gap

Evolving curriculum to better attract/retain students and reskill institutional staff

SKILL THE FUTURE WORKFORCE ON MICROSOFT TECHNOLOGY

Microsoft's Skills Strategy Evolution

From technology-based paths & certificates **to** role-based learning & certifications on our Technology

From multiple programs and learning paths **to** a unified curriculum

From multiple digital form factors **to** consistent microlearning approach on MS Learn

MICROSOFT LEARN

Microsoft.com/Learn

○ Help students of all ages learn about technologies and prepare for role-based certification

○ Step-by-step, bite-sized tutorials and engaging modules

○ Learning paths with interactive labs, sample code, and free test drive products

○ Secondary Schools to Higher Education learners

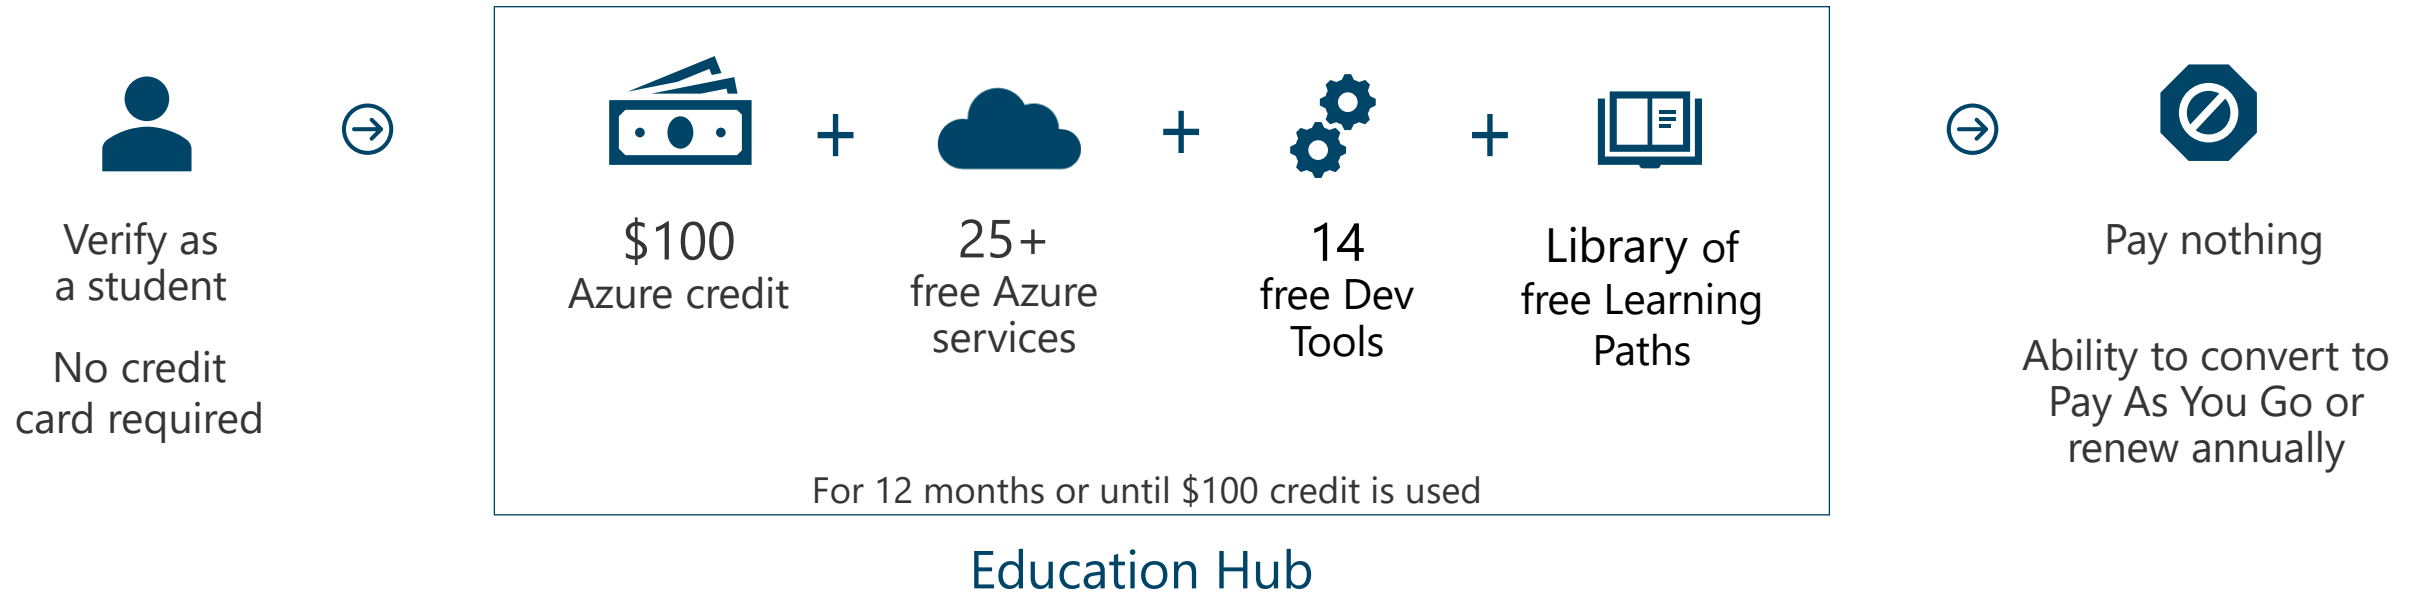

The screenshot shows the Microsoft Learn website. At the top is the Microsoft logo and navigation links for Learn, Azure, Business Applications, About, and More. Below the navigation bar, there's a 'WELCOME TO Microsoft Learn' section with a sub-header 'Introducing a new approach to learning'. It describes the platform's goal to help users advance their careers through hands-on learning and earning points. A prominent button says 'Start learning for free'. To the right, there's a featured module 'Introduction to Azure' with 8 units, described as a starting point for creating and configuring a virtual machine in the cloud, with a 'Start learning for free' button. Below this, there are tabs for 'Learning paths', 'Hands-on learning', and 'Learn for free'. The 'Start learning today' section encourages users to up their game with tailored learning paths and mentions Microsoft certifications, with a 'Select your role' dropdown. The 'Learn Azure' section offers advanced Azure topics with online courses. Three course cards are displayed: 'Deploy a website to Azure with Azure App Service' (5 modules), 'Azure fundamentals' (12 modules), and 'Work with NoSQL data in Azure Cosmos DB' (8 modules). Each card includes a brief description, a 'Learning Path' count, and a 'Beginner', 'Developer', or 'Azure' skill level indicator.

AZURE FOR STUDENTS

Azure for Students gives worldwide university students (ages 18+) access to more than 25 free Azure services, plus \$100 in Azure credit. It also provides students access to downloadable Dev Tools and learning paths in one convenient place for all their Azure endeavors – the Azure Education Hub.

aka.ms/azure4students

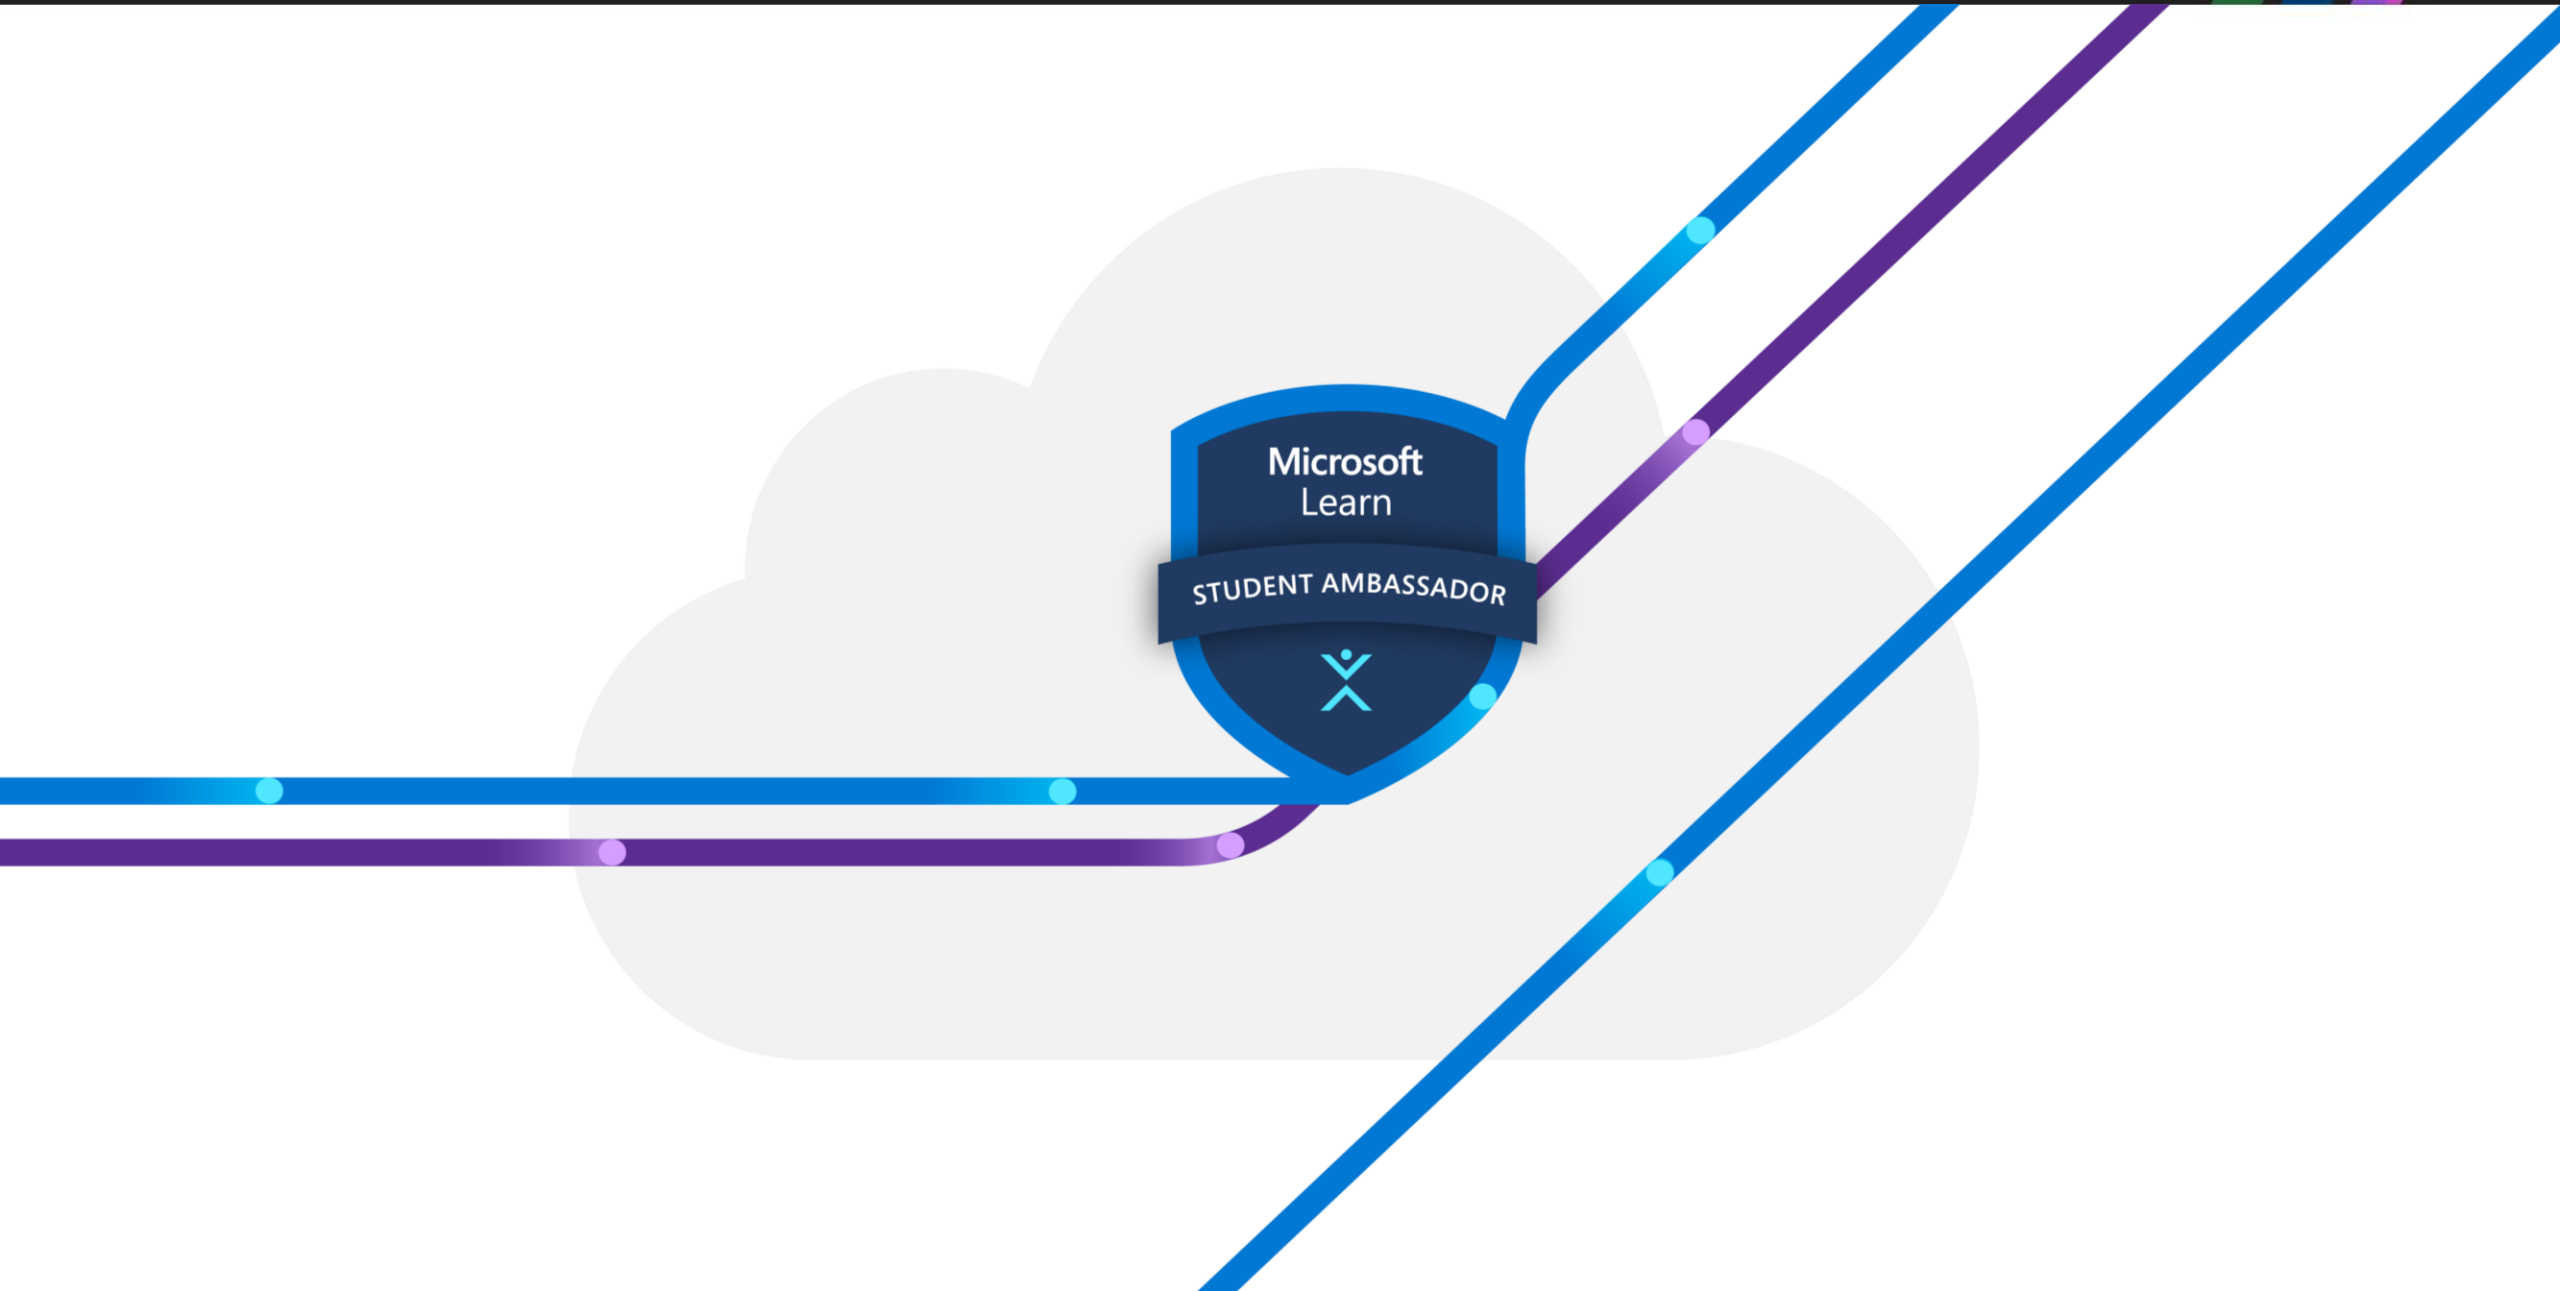

Usage Scenarios

Outside the classroom

Students wanting to learn on their own, participate in hackathons, or build their Imagine Cup project.

Inside the classroom

Limited to courses like Data Analytics, Machine Learning, Natural Language Processing, Statistics and Probabilistic Modeling with low to moderate resource demands.

Microsoft Learn Student Ambassadors

Finding your community is more important than ever as classes, events, and even social activities take place virtually. **Amplify your impact** as a passionate student leader and bring together like-minded peers to **build vibrant digital communities** across the globe, learn new skills, and solve real-world problems.

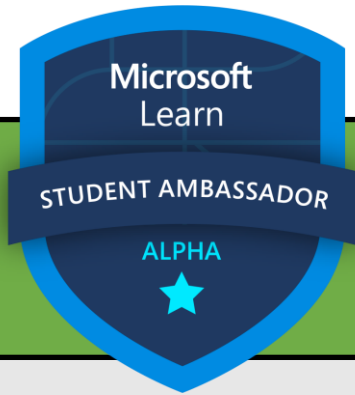

- Connect with other students who share your passion in focused Leagues and use tech to solve real-world challenges together
- Kick-start your career with training and certifications, support for virtual events, and unique access to experts and mentors
- Host digital events, offer guidance to other students, and earn recognition that separates your résumé from the pack

Applications are open year-round and selected students are onboarded quarterly!

StudentAmbassadors.com | #MSFTStudentAmbassadors

Program Benefits

- USD150 monthly Azure Credit
- Visual Studio Enterprise Sub
- LinkedIn Learning
- MTC certification exam voucher
- Name.com domain name

- Alpha benefits
- Swag
- Event Support
- Mentorship
- Access to Ambassador Summits

- Alpha and Beta benefits
- Access special events and speaking engagements
- Program Leadership opportunities
- Participate in pilot programs
- Microsoft Most Valuable Professional (MVP) Mentorship
- May be nominated to MVP program

All Student Ambassadors get Microsoft 365 w/ Office & Teams as well as Techsmith Snagit & Camtasia

Ambassador Leagues

Microsoft Student Ambassador Leagues are diverse communities of like-minded Student Ambassadors and mentors designed to allow you to engage in topics you are passionate about while enabling you to develop skills and share knowledge with your communities.

Technical Leagues

- AI and Machine Learning
- Data and Analytics
- Emerging Technologies
- Internet of Things
- Low Code Development
- Mobile and Web Development

Social Impact Leagues

- Digital Accessibility
- Education
- Green Tech
- Healthcare

What does the League experience look like?

Pursue Learning Paths

- Complete required Microsoft Learn learning paths that are relevant to the league topic
- Understand which Microsoft Learn learning paths and job roles align to the league topic

Utilize Workshop Content

- Co-create workshop content, following a standard workshop package, that will be shared out with the entire program for use
- Access to league-specific workshop content provided by Microsoft

Collaborate on Projects

- Work on projects that support the league topic, soliciting feedback and help from mentors
- Participate in skills challenges (e.g., Cloud Skills Challenge) against other leagues to continue to skill up

StudentAmbassadors.com - Hear from the Ambassadors

Beta

The best part of being in the program is the opportunity to network with a global community.

Rashika Karki, Nepal

Gold

Being a Student Ambassador gives you the experience of working with a team, connects you with other students and Microsoft employees, and equips you with leadership skills.

Joshua Ndemenge, Kenya

Beta

I am grateful for the Student Ambassador community. I don't see females in my classroom, and when I met the community and people at Microsoft, I realized I can be part of this.

Bruna Lanzarini, Brazil

StudentAmbassadors.com - Apply today!

Become a Student Ambassador

Finding your community is more important than ever as classes and social activities take place virtually. Amplify your impact and bring together your peers to learn new skills, solve real-world problems, and build communities across the globe.
